FA GLOBAL SERVICE

Your Global Partner and Local Friend

GLOBAL IMPACT OF MITSUBISHI ELECTRIC

Through Mitsubishi Electric's vision, "Changes for the Better" are possible for a brighter future.

Changes for the Better

We bring together the best minds to create the best technologies. At Mitsubishi Electric, we understand that technology is the driving force of change in our lives. By bringing greater comfort to daily life, maximising the efficiency of businesses and keeping things running across society, we integrate technology and innovation to bring changes for the better.

Mitsubishi Electric is involved in many areas including the following.

Energy and Electric Systems

A wide range of power and electrical products from generators to large-scale displays.

Electronic Devices

A wide portfolio of cutting-edge semiconductor devices for systems and products.

Home Appliance

Dependable consumer products like air conditioners and home entertainment systems.

Information and Communication Systems

Commercial and consumer-centric equipment, products and systems.

Industrial Automation Systems

Maximizing productivity and efficiency with cutting-edge automation technology.

Global Support

With our global service network,
Mitsubishi Electric is ready to support our customers
who have production bases around the world.

Mitsubishi Electric FA business group is supporting manufacturing not only in Japan but also all over the world. We use various local services to support our customers needs for example; local showrooms, FA mobile display caravans, global information service, training schools, 3-year warranty, 7-year repair policy as well as field service and local repair.

Please feel free to contact your local Mitsubishi Electric FA office. With FA Centers established in many regions all over the world as core operations, we offer various services to our customers while tightly cooperating with local sales offices, branch offices and agencies.

You can purchase your Mitsubishi Electric FA products in any country and in addition, we will support your global business with repair, training in local language as well as information supply to your local sites.

Showrooms

Our showrooms allow you to experience the leading edge of FA

I want to see all the latest models...

Introducing the latest technology.

Showrooms

We have showrooms all over the world.

Japan (Nagoya Works)

We proudly present you with the latest solutions incorporating Mitsubishi Electric FA/Mechatronics products in our showrooms.

China

Walk through a turbine machining center, try out semiconductor assembly machinery, and see an automobile conveyor line, all modeled on actual equipment.

Indonesia

Our exhibitions here focus on demonstrating solutions for HVAC, PA, BMS, and E PACK.

Japan (Fukuyama Works)

Experience "energy saving concepts through visualization" using e&eco-F@ctory.

Korea

Learn about plant visualization using e-F@ctory, and see some examples of how FA equipment has been introduced into actual work sites.

United States of America

In addition to worldwide products, our showroom introduces several products manufactured specifically for the U.S. market.

* Coming soon! Our latest showroom will be released in Thailand.

FA Caravan Trucks

Bringing the latest models to you

I'm interested in the latest models, but I haven't got time to go to the showroom...

Caravan Trucks

We want more customers to see, touch, and learn about Mitsubishi Electric FA equipment, so we've loaded our "Caravan Trucks" with the latest FA products, and are dispatching our fleet all over the world.

With them we can hold an exhibition in the corner of your parking lot—no need to travel far or reserve a meeting room. We are looking forward to hearing from you!

Mitsubishi Electric FA Website

Diverse services and functions provide strong support for your business

5

Mitsubishi Electric FA Website

I need information that applies to my region...

Our website supports a wide range of countries

We offer dedicated local FA websites from Japan, China, Korea to Europe and America. In addition to products that we sell all over the world, we offer information on region specific products, catalogs and manuals for each country, and a variety of other services for each region.

The "Worldwide" button on the upper right of the home page provides easy access to each country's FA site.

FA website home page

FA global website

I want information about Mitsubishi Electric FA products...

Product information

Our sites provide you with the product information you need to work with Mitsubishi Electric FA products.

I want to know about some actual cases where FA equipment was introduced...

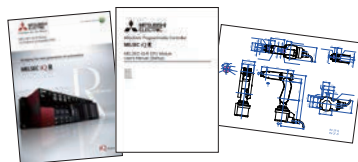

Solutions

Read up on case studies divided by application, such as theme, industry, and process. Our sites can help you to solve your problems and search for the perfect product for your needs.

I want to confirm the wiring and installation dimensions for a device...

Downloads

Download a variety of materials such as catalogs, manuals, software, and CAD data.

I don't understand the technical terms used at FA design sites...

Business support

Our FA glossary includes more than 4,000 technical terms. Use this valuable tool to increase the technical skills of your local staff.

I want to learn more about FA products...

Study and learn

Our self-study online classroom allows you to study over the Internet from your workplace, outside the office, at home... wherever you are, in real-time.

Supported languages

We offer courses in English, Chinese, Korean, Thai, Indonesian, Vietnamese, Malaysian, Spanish, Portuguese, and Turkish.

Training School

Training and education support — in your region and language

PROVIDING PROFESSIONAL TRAINING

How should I train my engineers?

Training in the local language

"FATEC Training School" provides training using actual equipment, from basic operation to applied programming. Training is held at FA Centers and FA Center Satellites in each country.

We offer a selection of training courses to meet your needs, as well as an on site training service.

Our dedicated staff at each location offer instruction in the local language, to assist in the training and education of your engineers.

Training school locations

(as of December 2014)

China, Taiwan, Korea, Japan, Singapore, Indonesia, Vietnam, Thailand, India, U.S.A., Mexico, Brazil, Germany, U.K., Czech Republic, Russia, Poland and Turkey

I want my engineers trained according to their skill level...

Increase skills with courses divided by level

We offer a total of up to 38 courses* divided by level, from the basics to advanced applications. Our courses can be used for a wide variety of purposes, from learning about basic equipment information, to supporting individual products.

* Number of supported courses in Japan, number can vary between countries

Outline of training courses

■ PLC-related

Q PLCs
FX PLCs
Positioning
PLC networks
MELSECNET/H
Maintenance

■ HMI-related

GOT1000

■ Inverter-related

Inverter practices
Maintenance

■ Servo-related

AC servo practices
Motion controllers
Maintenance

■ Robot-related

Robot practices

The courses listed above are only examples; supported courses may vary by country.

* See P12-13 (or the FA website if within Japan) for more details.

Satellite training series

We have prepared a 4-item set for learning the basics of electricity, wiring, and PLCs. The set is perfect for training your local overseas staff and improving their technical abilities. Each set comprises a DVD containing explanations, from our trainers, a printed textbook, practice equipment and software.

[Currently the set is available in six languages: Japanese, English, Chinese, Thai, Vietnamese and Indonesian]

Extended Product Life

Peace of mind with extended warranty and repair support

I want to use the products I purchase without having to worry...

3-year warranty*1

You can use our PLCs and HMIs without worry with our free 3-year warranty.

Our free warranty lasts for 3 years from the date of purchase or delivery to your specified location*2.

- *1: Due to local conditions the warranty period differs in China, please contact our Chinese sales offices (Mitsubishi Electric Automation (China) Ltd).
- *2: Warranty period is defined by our corporate regulations unless otherwise noted: 42 months from manufacture, including a maximum distribution period of six months after shipment from manufacturing.

I want to keep using a discontinued product a little longer...

7-year repair support

We offer repair services for up to 7 years after a product has been discontinued.

(Consumables and some overseas models are excluded.)

We provide a chargeable repair service for seven years after a product has been discontinued. Discontinuation is normally announced through technical bulletins, sales and service teams etc. Typically a discontinued unit is superseded by a newer model; past models will no longer be available.

- *: As the repair services differ depending on the model and the sales office, please contact the sales office.

Products covered by our 3-year warranty

Field Service/Repair

Repairs also available locally, no need to wait

**GET FAST AND
EFFECTIVE REPAIR**

I want to request service or repairs at my overseas production facility or delivery site...

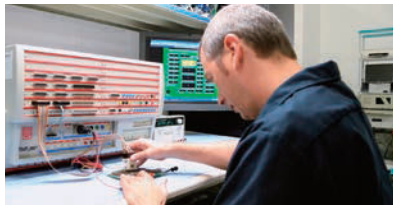

**Consult your nearest
FA Center**

Mitsubishi Electric has established FA Centers (FA equipment service locations) through out Asia including China as well as America, and Europe. Our FA Centers are core operations in each country. Together with our locations all over the world and our local agents, they form a network that supports a variety of services including repairs and consultation.

I want to request repairs but I can't set aside the time for them...

**Repair support also
available locally**

Our dedicated staff in each FA Center can respond quickly and locally to your repair requests. Our local staff can also provide answers to your technical questions.

Industrial Automation Machinery

We offer worldwide support for Mitsubishi Electric's state-of-the-art Industrial Automation Machinery

Our rich lineup of EDMs cater to diverse processing needs ranging from parts processing to ultra high precision processing. Utilizing our advanced laser technologies, our laser processors deliver high productivity, stability, and low running costs. Service and support of these Industrial Automation Machines is available worldwide through Mitsubishi Electric's extensive global network. Our local staff will provide a prompt response to your various needs from inquiries about processing applications to requests for training and repair.

Applications

We can propose optimum processing applications to cater to your needs before and/or after installation. If you have any questions about processing applications, please feel free to contact us.

Showrooms

EDMs, laser processing machines, and various other Mitsubishi Electric mechatronics products are displayed in our showrooms. Our dedicated engineers are always ready to help you.

Service and Repairs

We offer repair services, dispatch of engineers to the field, replacement parts sales, and technical support in close cooperation with our local distributors. In case of a malfunction, we will promptly assist you to fix the problem.

Training

We offer wide variety of regular training courses to give engineers the ability to use our products quickly after purchase. We offer basic operations to applied programming using actual products.

YOUR SOLUTION PARTNER

Mitsubishi Electric offers a wide range of automation equipment from PLCs and HMIs to CNC and EDM machines.

A NAME TO TRUST

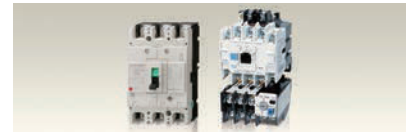

Since its beginnings in 1870, some 45 companies use the Mitsubishi name, covering a spectrum of finance, commerce and industry.

The Mitsubishi brand name is recognized around the world as a symbol of premium quality.

Mitsubishi Electric Corporation is active in space development, transportation, semi-conductors, energy systems, communications and information processing, audio visual equipment and home electronics, building and energy management and automation systems, and has 237 factories and laboratories worldwide in over 121 countries.

This is why you can rely on Mitsubishi Electric automation solution - because we know first hand about the need for reliable, efficient, easy-to-use automation and control in our own factories.

As one of the world's leading companies with a global turnover of over 4 trillion Yen (over \$40 billion), employing over 100,000 people, Mitsubishi Electric has the resource and the commitment to deliver the ultimate in service and support as well as the best products.

Low voltage: MCCB, MCB, ACB

Medium voltage: VCB, VCC

Power monitoring, energy management

PLCs

Inverters, Servos and Motors

Visualization (HMIs)

Numerical Control (NC)

Robots (Vertical, multiple-joint type-Horizontal, joint type)

Processing machines: EDM, Lasers, IDS
