

**Mitsubishi Electric is
launching New Series.**

Next Stage

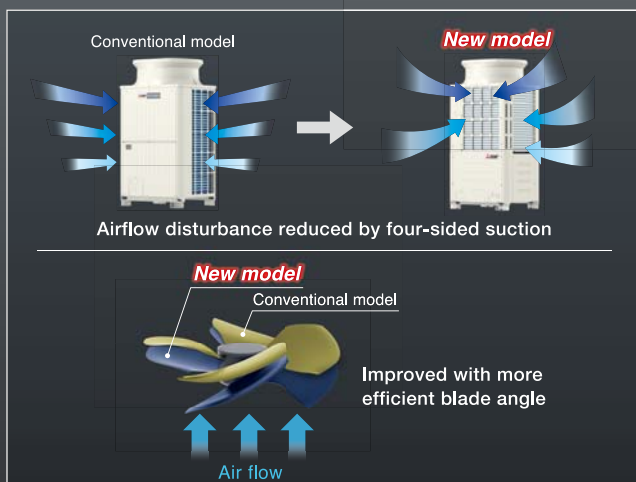

Introducing a new series of **CITY MULTI**.
Mitsubishi Electric is dedicated to improving
air-conditioning quality and providing customers
with next-stage solutions.

New Design

Energy Saving

Higher efficiency has been achieved through structural redesign that includes the use of a four-sided heat exchanger and new fan.

Compressor performance and efficiency have been increased by equipping the compressor with a new centrifugal force canceling mechanism and a new multi-port mechanism.
