[Title] Change in description methods for outline dimensions of main circuit terminals

[Date of Issue] November 2020

[Relevant Models] Air Circuit Breakers World Super series <Type : AE-SW/SWA>

We would like to inform that we change the description methods for outline dimensions of main circuit terminals in Mitsubishi low voltage air circuit breaker catalog “Y-0622” as follows.
This change is applied from the version K (Y-0622K).

There is no change in product specifications or dimensions themselves.

1.Relevant models

All types of Air Circuit Breakers World Super series <AE-SW/SWA>.

2.Applicable items

Side views for outline dimensions on page 45 to 54, in case of version K (Y-0622K).

3.Contents of the change

Change the description methods on main circuit terminals dimension from “the distance between terminals” to “the height of upper terminal from reference plane”.

Connecting method	Before	After
Fixed type		
Drawout type		

Above figures are on the side view of the horizontal terminal of AE630-SW, AE1000-SW, AE1250-SW, AE1600-SW.
