Classification	Description
Applicable product	Applicable products are products that satisfy the interface specifications of the modules manufactured by Mitsubishi. Note that Mitsubishi does not conduct verification of the applicable products. When applying the product, make sure to examine the applicability and confirm that it will not cause system operation problems. Follow the specifications of each product (applicable product) when using.

1. Precautions

Specifications of the applicable products are subject to change without notice.

Before using the product, please read "SAFETY PRECAUTIONS" of the Industrial Managed Switch User's Manual. For precautions on the connecting, disconnecting, and wiring to the module of each product, refer to Industrial Managed Switch User's Manual.

1.1 Precautions for SD memory cards

- The number of writings for SD memory cards is limited. For details, refer to the specifications of the product.
- When the industrial managed switch is powered off and restarted or the SD memory card is removed during an access to the SD memory card, data in the SD memory card may be corrupted. When the CARD ACS LED is flashing, power off and restart the industrial managed switch, or remove the SD memory card after an access to the SD memory card is stopped (the CARD ACS LED turns on).
