[Title] Change in the packaging of CC-Link system compact type remote I/O modules  
(manufactured in April 2016 and after)

[Date of Issue] February 2016

[Relevant Models] CC-Link system compact type remote I/O modules

Thank you for your continued support of Mitsubishi programmable controllers.  
We will inform you of the change in the packaging of CC-Link system compact type remote I/O modules.  
The strength of the packaging remains the same, and there is no impact on the product functions and performance due to this change.

### 1. Target modules and box sizes

| Module  | Model             | Box size                       |                                |
|---|-------------------|--------------------------------|--------------------------------|
|   |                   | Before change                  | After change                   |
| CC-Link system<br>compact type remote<br>I/O module | AJ65SBTB1B-16TE1  | 219 (L) x 67 (W) x 52 (D) [mm] | 200 (L) x 57 (W) x 74 (D) [mm] |

**2. Reason for the change**

As part of resource saving activities (ISO 14001), packaging boxes need to be downsized.

**3. Date of change**

The new boxes will be used for the products manufactured in April 2016 and after.

Note that, depending on stock status, both the old and new boxes may be distributed in the market around that time.
