

Change of the External Appearance of CC-Link IE Field Network Remote I/O Module (with Safety Functions)

■Date of Issue

December 2020

■Relevant Models

NZ2GFSS2-32D

Thank you for your continued support of Mitsubishi Electric programmable controllers.

We are informing you that the external appearance of the CC-Link IE Field Network remote I/O module (with safety functions) will be changed.

There is no impact on the general specifications, performance specifications, and functions of the modules due to the change.

1 RELEVANT MODEL

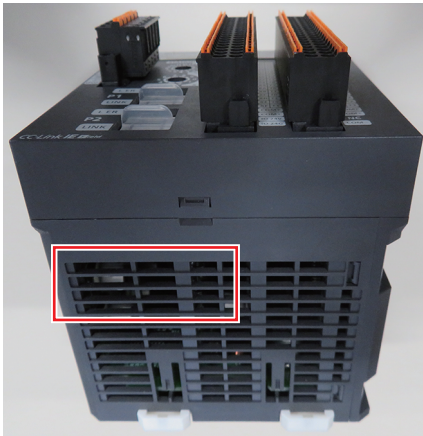

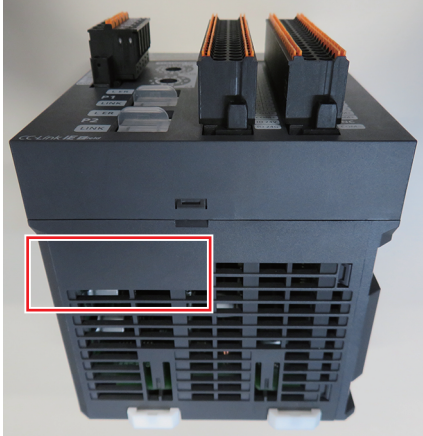

Product	Model
CC-Link IE Field Network remote I/O module (with safety functions)	NZ2GFSS2-32D

2 REASON FOR THE CHANGE

To keep a sufficient creepage distance to improve electrostatic resistance.

3 DETAILS ON THE CHANGE

The external appearance of the module case will be changed as shown below.

Before change	After change
	

FA-A-0322-A

4 VERSION AFTER THE CHANGE

The change will take place from the following versions.

Version after the change	
Serial number	Serial number location
First six digits are 221215 or later.	SERIAL field in the rating plate on the left side of the module

5 CHANGEOVER PERIOD

The change will take place one by one for products manufactured on and after December 2020.

Depending on the stock situation, the products before change may be delivered even after the changeover period.

FA-A-0322-A

REVISIONS

Version	Date of Issue	Revision
A	December 2020	First edition
