

## External Appearance Change for MELSEC iQ-R Series C Controller Module

**■Date of Issue**

October 2021

**■Relevant Models**

R12CCPU-V

Thank you for your continued support of Mitsubishi Electric programmable controllers, MELSEC iQ-R series. We are informing you that the external appearance of MELSEC iQ-R series C Controller module will be changed. There is no impact on the general specifications, performance specifications, and functions of the module due to the change.

### 1 RELEVANT MODELS

Product	Model
MELSEC iQ-R series C Controller module	R12CCPU-V

### 2 REASON FOR THE CHANGE

The change is applied to ensure stable procurement of parts and high productivity.

### 3 DETAILS ON THE CHANGE

The external appearance of an RS-232 connector will be changed as shown below with the changes in the mating fixed base parts.

Before change	After change
	

### 4 CHANGEOVER PERIOD

The change will take place one by one for products manufactured on and after September 2021.

Depending on the stock situation, the products before change may be delivered even after the changeover period.

In addition, the parts will be changed as needed depending on the accessibility of them before and after this change.
