

# MELFA Technical News

March 2015

**Subject:** Externals size and corporate logo change, accessory addition of the conversion cable for the teaching pendant (T/B)

**Applicable to:** Option for F series

Thank you for your continued support of Mitsubishi industrial robot MELFA series.  
We will change the conversion cable option for the T/B of the following Mitsubishi industrial robot.

## 1. Target model

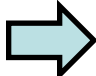

Model name : 2F-32CON□M

Note 1) The "□" indicates the cable length.

## 2. Details of the Change

- ① Externals size of the connector connection box of the product is miniaturized.
- ② The corporate logo of the product is changed from "MITSUBISHI" to "MITSUBISHI ELECTRIC".
- ③ Dummy plug (2D-DP1) is added to accessories.

< The old and new can be identified by the corporate logo of the product.>

Before change		After change
 <b>MITSUBISHI</b>		 <b>MITSUBISHI ELECTRIC</b>

## 3. Schedule

This change will be made sequentially from December 2014.  
(There may be cases when both new and old products exist in the distribution stage.  
We ask for your understanding in this matter.)

This change does not affect the performance and functions of the conversion cable for T/B.

「2F-32CON□M」 old and new difference.
