

TECHNICAL BULLETIN

[Issue No.] FA-A-0150-A

[Page] 1/2

[Title] Production discontinuation of some products

[Date of Issue] April 2013 (Ver. A: August 2014)

[Relevant Models] MELSEC series, MELSOFT series

Thank you for your continued support of Mitsubishi programmable controllers, MELSEC series, and Mitsubishi integrated software, MELSOFT series.

The production of the following models will be discontinued.

1. Models to be discontinued

(1) MELSEC series peripherals

Product name	Model	Alternative model
RS422 cable for connecting A7PU/A7HGP/A6GPP-CPU	AC30R4	DAC30R4 manufactured by Diatrend Corp.
RS422 cable for connecting A6TEL RS-422 connector 2, 30m	AC300R4-EX	-
Cable for connecting AD51H(-S3)/AD57G(-S3), A7NPR(-S1) printer	AC30PIO-20P	-
Shipping standard vibration resistant fixing bracket	A6SFX	-

(2) Mitsubishi integrated software MELSOFT series

Product name	Model	Alternative model
SoftLogic software package applicable to PC CPU	SW1PNC-Q25SS-E	-

2. Schedule

- Order acceptance: February 28, 2014
- Production discontinuation: March 31, 2014

3. Reasons for discontinuing production

The need for the products is notably declining due to the transitions to the new models.

Furthermore, since some parts used on the products are difficult to obtain, the continuation of the products is expected to be difficult.

4. Repair acceptance

Repair acceptance: Through March 31, 2021 (For 7 years after production discontinuation)

Note that, however, repair of the software packages described on this bulletin is not included.
