

TECHNICAL BULLETIN (Digest version)

[Issue No.] T99-0051-E

[Page] 1/1

[Title] Production discontinuation of MELSEC-A/QnA (Large type) series models and Network modules and relevant products
AnS/Q2AS (Small type) series is not included in the discontinuation target except the Network modules below.

[Date of Issue] Feb., '06

[Relevant Models] MELSEC-A/QnA/A2C/A0J2 series, MELSECNET(II),/B, MELSECNET/MINI-S3

Thank you for your continued support of Mitsubishi MELSEC-A/QnA series.

MELSEC-A/QnA series models that have been used over twenty years since 1985 will be discontinued as follows.

1. Models to be discontinued

Product name		Production discontinuation	Reference materials
Large type A series Large type QnA series	<u>A/QnA(Large type)</u> *1 CPU module, I/O module, Special function module, Data link module (MELSECNET(II),/B module and others)	Through September, 2006	Technical bulletin T99-0050
A2C series	<u>A2C</u> CPU module		
PC interface boards	<u>MELSECNET (II),/B</u> MELSECNET(II),/B Interface board	Through September, 2008	Technical bulletin T99-0049
Small type AnS series	<u>MELSECNET (II),/B</u> *2 Remote I/O module		
	<u>MELSECNET/MINI-S3</u> *3 Small type A series master module, I/O module	Through September, 2008	Technical bulletin T99-0070
A2C series	<u>A2C</u> A2C I/O module, Special function module and others		
A0J2(H) series	<u>A0J2 (H)</u> CPU module, Power supply module, I/O module, Special function module and others		

*1 As for some modules, we will continue production for spare parts usage up till the last day of October, 2008. For details, refer to the technical bulletin T99-0050. For large type MELSECNET/10 network modules, we will continue production for transition from MELSECNET(II),/B to MELSECNET/10.

*2 For AnS Series master/local station data link units (A1SJ71AP21, A1SJ71AR21, A1SJ71AT21B), we will continue production.

*3 Discontinuation of the MELSECNET/MINI communication LSI has been decided through September, 2006. For details, refer to the technical bulletin T99-0071.

Notice

Continual production of Small type A series master modules and I/O modules for the MELSEC-I/O LINK. We have notified that production of Small type A series master modules and I/O modules for the MELSEC-I/O LINK will be discontinued in September 2008 on the technical bulletin PLC-D-508-C issued in May 2005. After considerable discussion, we have decided to continue production as is conventionally done. Note that the above models will be available as "made-to-order" from October in 2007.

Point

For AnS/Q2AS series users

AnS/Q2AS series models, which are small type (small/medium scale-compatible), are not included in the discontinuation target except the above Network modules.

Users can continue using AnS/A2AS series models.
