

for a greener tomorrow

350 fills a minute.

“ Mitsubishi Electric has been our supplier for 20 years; they are always there when we need them. We see them as our partner. ”

Carlos de Rosenzweig, EquitekCE, Mexico.

Global Partner. Local Friend.

Let me tell you my story: EquitekCE is a specialist packaging machine manufacturer with over 30 years' experience. We are focused on packaging, packing and labeling of products in rigid containers, from agrochemicals to pharmaceuticals. Our machines are ideal for small and medium-sized products with fill rates starting from 20 containers per minute rising to 350 containers per minute. Mitsubishi Electric has a great spectrum of products and are a totally reliable supplier with very accessible prices and an excellent service. Working with them has meant they are always there when I need them; always willing to cooperate and always close. We have been making machines for more than thirty years, but we do not deliver machines, we deliver solutions which is why we brand-bonded with Mitsubishi Electric, a brilliant supplier with fantastic equipment.
