

for a greener tomorrow

# Learning for life.

“ Our research and learning processes need to be relevant to the actual situation you find in real life manufacturing, that’s why we decide to use a robot from Mitsubishi Electric. ”

**Roberto Rosas**, Dir. Associated Engineering and Sciences, ITESM Campus Leon, Mexico.

## Global Partner. Local Friend.

**Let me tell you my story:** Power, precision and speed are the characteristics with which Mitsubishi Electric robots meet the needs of industry, dramatically driving the automation of a factory. The laboratory of Mechatronics Careers at the ITESM Campus León, relies on all these qualities and puts them within the reach of its students, providing state-of-the-art technology and advanced learning. We invite you to visit the campus and get to know the wide academic opportunities it can offer you.
